Subject: Amendment to Solid Waste Permit #13-C
Land Clearing and Inert Debris Landfill
Cabarrus County, Kannapolis, NC

Dear Mr. Rowell:

I am writing in regard to ENSCI Engineering Group's request of October 6, 1993 regarding the referenced landfill. The Solid Waste Section has reviewed and approved the request to expand the landfill into Cells 7, 8, and 9 (totalling 3.69 acres) as shown in the Operations Plan - Phase II, Drawing 9 of 10; originally submitted June 7, 1993, and revised October 6, 1993. Please note that all Conditions of Permit #13-C are applicable to this phase of the landfill.

With regard to the second request to utilize coal combustion by-products as structural fill in Cells 10, 11, BF1, BF2, BF3, and BF4, the Section must inform you that this proposal is still under review by the Section. If further information supporting this request is needed to complete our review, we will notify you.

Sincerely,

Janis D. McHargue
Western Area Engineer
Solid Waste Section
